

DOMESTIC & HOUSEHOLD

FEATURES & ACCESSORIES

DTRON ESYBOX DIVER

DOC68

Maximum flexibility of installation.

With this accessory and IP68 certification, the DTron pumps can be installed even out of water and used like real traditional booster pumps.

FLOAT

Detects the level of water in a tank, preventing emptying of the tank and avoiding dry running due to low water level. (Included on DTRON 2)

WATER LEVEL SENSOR

Connected to the DConnect Box 2, the sensor notifies the user of the water level via an App (only for DTron 3).

The DConnect Box 2 allows access to the DAB cloud service. With the new App, you can manage and monitor the pressure of the system, the alarms and the level of water in the tank directly from your smartphone or tablet, wherever you may be! Subscription fees apply.

DCONNECT BOX 2
